

Who We Are

EOS Alliance is a non-profit organization dedicated to making our community and environment a better place. We are a team of professionals committed to providing environmental education and technological training for the eco-stewards of today and tomorrow. Our work focuses on inspiring change, facilitating action while producing sustainable results.

Facilitation

- Providing leadership and expertise for a wide-variety of environmental projects and initiatives
- Coordinating and managing a 1 million dollar Carbon Capture & Sequestration program
- Acting in an advisory capacity on Seattle City Council's green jobs committee
- Guiding and empowering Seattle communities in their effort to create a carbon emissions cooperative
- Bringing together professionals, students and the public for informed debate and discussion on today's critical environmental issues

Training

- Delivering powerful courses on current policy, standards and regulations for environmental professions
- Providing local opportunities for continued education in a wide variety of topics (region-specific as well as national)
- Keeping our students up to speed with latest technological practices in environmental services and products
- Collaborating with industry leaders to raise the bar for standards of excellence in environmental education services

Action

- Revitalizing local green spaces like Maple School Natural Area through habitat restoration work parties and community events
- Providing a public forum for discussing critical environmental issues with leading experts
- Coordinating and educating volunteer groups in best practices for native plant care
- Hosting and facilitating community workshops addressing a broad spectrum of environmental topics
- Working with a coalition of groups to help under-served communities become more energy efficient - Powerful Neighborhoods Program

Dr. Steven Chu, US Secretary of Energy with Senator Patty Murray
Keynote speech at the EOS Alliance office.
